Quiz 5 September 12, 2013

Here is your opportunity to show you completed yesterday's lab reading.

0. Why is it important to call the release method when stopping the MediaPlayer?

1. Suppose you are playing an audio file in Android, you use the back arrow and the host Fragment is destroyed, but the music is still playing? What error did the programmer make?

2. In what situation would you use a TableLayout instead of a LinearLayout.

3. Why, if our program values are English strings, is the folder which holds them entitled values/ instead of values-en/?

4. Table 15.1 gives a list of 18 device characteristics that the Android system recognizes for targeting resources. List 5 of these 18.

5. What are two naming conventions for Android (multi-media) resources (as specified in an xml file)?
